The Literary Imprint of
Brilliant Creations Publishing, Inc.

Mission

Brille Petit aims to awaken in readers, especially the youth, a desire to learn and to read local literary works that inspire, connect, and enrich minds. Likewise, it seeks to provide publishing opportunities for untold children's tales written by Filipino authors.

Vision

Brille Petit envisions a generation passionate about reading, a new breed of Filipino authors and illustrators presenting children's stories and other literary works to a global audience, and a growing opportunity to promote literacy and share our culture with the world.

Our Story

Brille Petit began as an idea sparked by a storybook project on the life of Victoria Coralejo, one of the founders of Brilliant Creations Publishing, Inc. The publication of "Teacher Vicky" marked Brilliant Creations' first foray into the realm of children's literature, catalyzing the creation of the imprint and its passion to promote reading and storytelling to Filipino children.

Since its official establishment in 2016, Brille Petit has partnered with visionary authors and artists to craft illustrated children's books focusing on diverse themes, including environmental awareness, proper care of body parts, positive reinforcement of discipline, and other values-laden narratives that spark curiosity and nurture identity. Widening its reach to teens and young adults, Brille Petit has also produced poetry collections on love and a nonfiction anthology on the inspiring lives of empowered women.

With the imprint's commitment to producing meaningful picture books, a number of its titles have earned prestigious national awards for children's literature, including the Severino Reyes Medal and Cardinal Sin Catholic Book Award. One of its most celebrated titles also received recognition in the IBBY Honour List 2026. Motivated by its continuous growth, Brille Petit has started to venture into book-related events, including school book fairs and children's storytelling competitions. Through these initiatives, the imprint provides children with opportunities for creative self-expression and worthwhile reading experiences that shape their knowledge and imagination.

At the heart of Brille Petit's story is the desire to serve young readers through narratives that validate their unique experiences and honor their aspirations, so that someday, they too can reach their full potential, fulfill their own dreams, and let their own stories shine.
